
Mullis Origins

I found this post on the Ancestry.com Mullis forums posted by Art Mullies. I have seen Arts name around on the web for a while and know he has been researching for a while. He is more than welcome to join us and respond to any comments here at The Mullis Melange Web Site. I'm not sure if his book is for sale or not. You could try emailing him if the email below still works. - Joe

I would like to put in a word for my published "Documentary History of the English-Speaking Mullis Family," so titled, which came out first in 1984 and now has undergone considerable up-dating and corrections... To my knowledge, I was the first to publish such a work on our family, and especially on the thesis that there was/is an English Mullis family which may be documented back to 1066 A.D. in England, and before that, to Normandy, France.

I endeavor to clearly identify sources throughout, and include such items as Probates from 1295 AD, military service records which stretch back to 11th century through 1500s, selected Parish Records from 1500s, and then renew the documented tracing of the family in Colonial America beginning in 1658, based on Gift Deeds, Land Transfers, Militia and Court Accounts, Estate Inventories, Tax List sources, petitions, etc., ANYTHING AND EVERYTHING I've been able to locate specifically recording actual Mullis individuals, through the year 1774 in Pre-Revolutionary North Carolina.

I also enjoy helping people trace their respective Mullis lineages, from 1774 through about 1880....

Thank you,

W. Arthur Mullies A75551@aol.com
